

FY17 Flow Cytometry and Cell Sorting (FCCS) Core Services and Fees

The pricing structure listed below is effective as of July 1, 2016. For all custom projects, please consult the FCCS Core Director for a quote.

Flow cytometry, non-assisted: \$50/hr., billed in 30 min. increments

Users must provide all reagents and supplies, except for sheath buffer for the instrument, which is provided by the core. Users are responsible for machine set-up, analysis, data collection and machine clean-up.

Flow cytometry, assisted: \$70/hr., billed in 30 min. increments

Users must provide all reagents and supplies, except for sheath buffer, which is provided by the core. The core operator is responsible for machine set-up, analysis of samples, data collection and storage and machine clean-up. Users may either observe the operator during analysis of their samples, or may drop off their samples to the core and return for their raw (unanalyzed) data.

Cell sorting (assisted only): \$80/hr., plus a mandatory ½ hour setup fee
Billed in 30 min. increments

Users must provide all reagents and supplies, except for sheath buffer, which is provided by the core. Only trained core staff (operator or Core Director) may use the Aria II cell sorter.

NEW: Training in use of instrumentation and software: \$80/hr., minimum of one hour
then billed in 30 min. increments

Raw data analysis by the FCCS core: \$50/hr., minimum of 30 min.
then billed in 15 min. increments

External users, surcharge rate:

External, academic: 50%

External, commercial: Directly negotiated with the Office of Research
